CEO

”

Our story

We've been doing things differently for over a century.

Peterson Energies is part of the Royal Peterson and Control Union group, a Dutch family-owned company established in 1920, which operates globally with a presence in 80 countries and has 6500 employees working across logistics, certifications, testing, and inspections.

Peterson is committed to helping energy companies navigate a changing world. Through innovative logistics, supply chain, technology and consultancy solutions, we support clients across the energy sector - from traditional energy operations to renewables and emerging low-carbon industries - ensuring essential energy projects operate safely, efficiently, and sustainably on a global scale.

Our experienced professionals and ambitious new talent have the opportunity to make a meaningful contribution to business success while developing their careers as the energy transition advances.

We offer a culture built on respect, safety, and teamwork, along with diverse long-term career opportunities and purposeful work that makes a real difference.

“

By supporting early careers and providing opportunities to learn, we're helping individuals reach their potential while strengthening the future of Peterson.

Katie Forman

Learning and Development Advisor

The graduate programme

THE OPPORTUNITY

We're looking for graduates with a growth mindset: curious people who are eager to learn, take ownership, and make a meaningful impact. Whether you're solving complex challenges, supporting critical operations, or helping customers improve efficiency and sustainability, you'll be contributing to projects that matter.

Our graduate programme is designed to accelerate your development. You'll gain hands-on experience, structured learning, mentoring, and exposure to different areas of the business, building a strong foundation for a long-term career.

With opportunities spanning operations, logistics, supply chain, technology, project management and leadership, this is more than a graduate role, it's the start of a career where you can continue to grow, develop new skills, and shape your future with Peterson.

WHAT YOU'LL DO:

- Contribute to a variety of projects across different business areas and locations.
- Conduct research and analyse information to support business decisions and project outcomes.
- Apply analytical and problem-solving skills to real-world challenges.
- Collaborate with diverse teams and stakeholders across global operations.
- Travel and work flexibly across locations as required.
- Communicate findings and recommendations clearly and effectively.

THIS IS FOR YOU IF YOU:

- Have strong research and information-processing skills.
- Enjoy analysing complex information and solving problems.
- Have good communication skills and the ability to work well with different people and teams.

- Are ready to learn, contribute and grow in a dynamic environment.

WHAT YOU'LL GAIN:

- Global project experience and exposure to diverse teams.
- Industry skills, professional certifications, and career development opportunities.
- Mentorship and support from experienced colleagues.
- Social and networking opportunities through team events.
- Opportunities to support charitable and fundraising initiatives.
- Access to the Cycle to Work scheme.
- A supportive and inclusive culture focused on growth and wellbeing.

WHAT WE'RE LOOKING FOR:

- Recent graduates or early-career professionals with 0–3 years of experience.
- A degree in business, sustainability,

agriculture, engineering, science, data, or a related field.

- Adaptability, confidence, and resilience.
- A proactive attitude, a growth mindset, and a strong desire to learn and develop.
- Willingness to travel and flexibility in working across different locations.

HOW TO APPLY

We believe in selecting for potential not just credentials.

Please submit your CV and a short motivational video of three minutes explaining why you would like to join and what you hope to gain by joining the programme to:

clawie@onepeterson.com

“

We are looking for ambitious graduates who are passionate about learning, developing new skills, and gaining practical experience that will support their long-term career growth.
